The graduation exercises of the Dale Carnegie course were held at Sali's Club Paradise April first. The graduation highlighted the end of the interesting 14 week course.

What is the Dale Carnegie course? Well, why not find out by attending an organizational meeting to be held Monday April 25 at 3:00PM. The meeting will be held in the Astron Rocket Society Club House. A representative of the Dale Carnegie course will be in attendance to explain the function and goals of the course.

Several former Dale Carnegie graduates will attend the meeting.

It should be noted that all employees are invited to attend. And this meeting should be of special interest to Department Heads; Supervisors.

We need more News!

This is the first Launch Pad. If I have forgotten someone or something, please forgive me. The deadline for news will be the Friday before the paycheck. In order for the Launch Pad to work all of your help will be needed. Send me information on new workers, special occasions, hobbies (out in orbit type) and anything else that will be of special interest to all of us. Please give me the material in writing (I have a lousy memory).

If you have any questions please see me.
