Weighing in at NARAM-8

NARAM-8 has come and gone and we have another trophy to add to the collection--thanks to the team effort of Vern, Gleda, Betty and Norm. With a new type boost glider (designed by You Know Who) the 1st place trophy for the class of Swift Boost-Glide was cinched. In addition to the trophy, each team member received the traditional blue ribbon.

Upon completion of the new building, there will be a special niche in the lobby for public display of all the "hardware" and ribbons won by all Estes members in local, national and international competition.
