

BULLETINS...

The new MRN V-6, #2, is now being mailed to customers, and is keeping everyone busy -- especially Jean Fowler and Lillian Little.

Please give all items to be posted on the bulletin board to Don Chumbley. He will date them and see that they get a fair run. Thank you.

The Florence High School Choir was on KKTU last night. The multi-voice choir was sponsored, in this rare television program, by the people of Estes Industries.

MAY THE BLUEBIRD OF HAPPINESS....

THANKS TO EVERYONE for the shower, and the beautiful gifts and cards. Special thanks to Peggy Chumbley for the cakes, Vern for the tape recording, Gleda for the spaghetti dinner, and to all who signed the rolling pin.

CHRISTMAS 1966

The Christmas rush is in full swing once again. We can take pride that our service is making many young (and some not so young) people around this country very happy. Further, we can rest in the assurance that our product will provide them with many hours of safe enjoyment.

It is interesting to reflect that we have over 100,000 bosses that we must please and supply, --that is enough to confuse even the merriest of seasons.

MERRY CHRISTMAS !!!

P.S. See you at the Christmas Party tomorrow night.

DEPARTMENTS OF THE WEEK

Have you wondered what is meant by "Customer Service"? The four girls shown on the cover of this weeks "Launch Pad" comprise this department. Lucile Barber is the supervisor. She works with the bad checks we receive and answers customer complaints. Judy Adamic also works with complaints and other necessary correspondence of the department. Verna McCalister opens returned merchandise and writes to the sender. Carol Johnson writes to the rocketeers that wish special information or just want to correspond with someone at Estes Industries. The Customer Service crew answers over 40 letters apiece per day. Writer's cramp seems to be their occupational hazard.

Now Welcome to Dealer Sales. This two member operation is responsible for over 600 dealers and 1500 educators that use our products. June Harris, as supervisor of the department states that they process about 20 dealers and 20 educators orders each day. Because of the demand placed on our supplies by our regular customers, June and her Girl Friday, Ines Prelas, have had to turn away many prospective dealers.
