

FIRST AID

Several employees have indicated an interest in a voluntary off-duty first aid course. The company will make arrangements for qualified instructors if there are enough requests for such a course. Please indicate your sentiments to your supervisor or to the Personnel department.

ESTES

LAUNCH
PAD

August 23, 1968

The Estes tour guides and our retail store clerk, dressed in their attractive uniforms, prepare a Big Bertha for launching at the Estes Pad. This has been a favorite part of the company tour for traveling rocketeers. More information about

the tours will be compiled and prepared at the close of the tourist season. A note of appreciation to Alice Hammock, retail clerk, Beth Hartman, Pat Legan, Claudia Lauten, Fay Auxier, Sherri Hyde, Jo Harris, Judy Mace, and Shari Green (not pictured).

WELCOME NEW EMPLOYEES

Marlene Lewis, a motorcycle enthusiast, joins the Print Shop crew. She also enjoys gardening and yard work. Marlene lives in Pueblo with her two children and husband who is employed by C.F.&I.

Connie Miller, the mother of a four-month old boy, is a new member of the Print Shop team. Her husband works at the Big-O Tire Store in Canon City. As residents of Florence, the Millers enjoy water skiing and camping in their spare time.

Wayne Rayburn has also joined the crew in the expanding Print Shop. He makes his home in Pueblo with his wife and two children. A skilled horseman, Wayne owns two horses of his own.

WHO'S WHO

Ella Garner, Shipping department, dearly loves to raise flowers. The house plants which are her specialty bring warmth and beauty to her home. Ella is especially delighted with her four types of philodendron. Among her many floyers are a variety of cactus plants, a cinnamon vine and a four-foot poinsettia.

Two pet Chihuahuas and a parakeet are special residents in her home. The parakeet acts as a very reliable alarm clock.

Recently the Garners moved to a home at the Corley Coal Mine south of Florence. Employed by the mine for the past twenty years, Mr. Garner serves as its foreman. The Garners also enjoy farming. they are leasing over 1400 acres of pasture land for their cattle.

Ella has two daughters, two sons, a step-son and four grand-

Elizabeth Teigen, born and raised in England, is the new secretary in the Purchasing department. She lived in Panama for nine years then moved to the United States. Elizabeth, now living in Canon City with her four boys, finds reading a particularly enjoyable pastime.

BOWLING

Second call for bowlers!
Two evening leagues for couples and a women's morning coffee league are being formed. Only one problem: Time for signing up is running short.

Contact Gleda Estes or Lyn Griffin.

children. The oldest daughter, Angie, is attending the College of the Canons while Iva is a second grader. The boys are scattered throughout the United States. The youngest son is in Pueblo, the oldest lives in Albuquerque and the step-son is located in California. Ella particularly enjoyed the company of two of her grandchildren for three weeks this summer.

Ella came to work for Estes Industries on July 15, 1965. Beginning as a packer she soon took her place in a shipping booth. Today she continues to faithfully serve the company and our rocketeers as a shipper.

"I want to thank everyone for the 'Get Well' card. It was a great lift." - Bob Redington

BRIGHT TOMORROWS

Estes Industries could double its work force in the next two years. This report indicating a bright future for the company here in Penrose was given by Vern to a meeting of local citizens, officials of a firm seeking to develop in the area, representatives of several Federal and state agencies and Congressman representatives of several Federal and state agencies and Congressman Frank Evans. The group met in our conference room August 6 to discuss methods and means to insure orderly and systematic growth in the community. The optimistic atmosphere pervading the group seemed to rest on three basic factors: 1) Progressive-minded community leadership; 2) The new domestic water system with the assurance of plenty of water for future expansion; and 3)

The presence of Estes Industries in Penrose.

It is difficult to predict the exact future of the company. However, an ever-expanding market for model rocketry and a continuing good employee-employer working relationship here at the plant indicate good days ahead.
