

# NEW FEATURE

DATE LINE: **Centuri** JAN., 1973

AVAILABLE: NOW!

HERE'S ANOTHER NEW IDEA FROM CENTURI!

## Metallic "SPEC-PLATE"

Included AT NO EXTRA COST with many Centuri kits is this unique black and shiny chrome "Spec-Plate!" Like the specification data on many real rockets, this pressure-sensitive "Spec-Plate" provides just the right finishing touch to a Centuri model rocket.

**VITAL STATISTICS** →

Centuri SPECIFICATIONS			
Designation	JAVELIN		
Length	12.5"	Fin Span	3.9"
Net. Wt.	0.6 oz.	Body Diam.	0.76"

Sport Rocket/Chute Recovery			

→ **ROCKET DESIGNATION**

→ **RECOMMENDED ENGINES**  
*So handy for the Rocketeer out on the field... eliminates guess work on engine selection.*

**BONUS METALLIC SPEC-PLATE**

**INSTRUCTIONS for applying the "Spec-Plate"** →

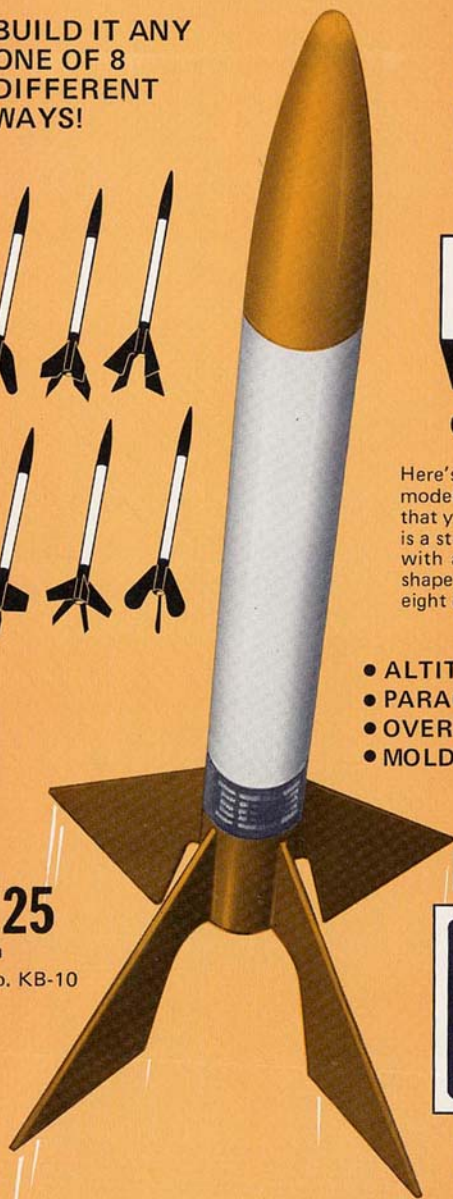

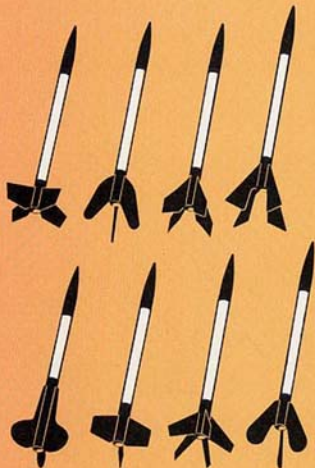

PUT IT ON YOUR FINISHED ROCKET!  
SIMPLY CUT ON DOTTED LINE, PEEL OFF BACKING, AND RUB ONTO ROCKET!

You'll be seeing more of the Centuri Spec-Plate as time goes by. It is featured in the new Nomad, Moonraker, Argus, Sky Devil, Arrow-300, and the forthcoming Mini Line Kits. You'll find it also in the latest "editions" of the Astro, Javelin and SST Shuttle, along with many other new features such as pre-cut balsa fins! As time goes by, eventually ALL Centuri kits will have the "Spec-Plate" . . . Look, for the "Spec-Plate", or a facsimile, right on the package!

## FLYING MODEL ROCKET OUTFIT

### WHAT'S AN EAGLE POWER?

Why, its a Screaming Eagle,<sup>T.M.</sup> a Powr-Pad<sup>T.M.</sup> and all the goodies needed to start flying model rockets! Nothing else matches it in price, customer convenience, or performance!

### SCREAMING EAGLE<sup>T.M.</sup> Almost -Ready-to-Fly model rocket kit!

- No tools required
- All pre-colored
- Parachute recovery
- Unbelievable altitudes
- Sturdy plastic & fibre

### POWR-PAD<sup>T.M.</sup> A whole new direction in launchers! Mounts on top of standard 6-volt lantern battery!\*

- Compact & portable
- Sturdy & stable
- High reliability
- Assembles rapidly

Plus 15 feet of cable, large exhaust deflector, safety key, check light, and 3 foot launch rod!

# EAGLE POWER<sup>T.M.</sup>

**2 ENGINES:** For surprisingly high altitudes!

**IGNITERS:** The new Sure-Shot-Dot!

**RECOVERY WADDING:** New crepe wadding, protects parachute!

**MINI-MANUAL:** Handy booklet of basic model rocket information!

**GLUE PACKET:** For assembling the Screaming Eagle!

## TRULY COMPLETE!

### HOW CAN YOU GO WRONG?

We won't let you! The Eagle Power Outfit includes step-by-step illustrated instructions for goof-proof assembly and happy flying!

**NEW PRODUCT**DATE LINE: **Centuri** JAN., 1973

AVAILABLE: Mar. 15, 1973

**POWR-PAD**<sup>T.M.</sup>THIS ISN'T JUST ANOTHER  
NEW LAUNCHER . . .

It has the lowest list price of any nationally advertised launcher we know of! And its loaded with features appreciated by any experienced rocketeer!

**RELIABLE POWER SOURCE:**

Common 6-volt lantern cell,\* good for over 500 ignitions!

**NEW CONCEPT:** Convenient upper-rod storage!

**SAFETY FEATURE:** The low heavy battery\* gives Powr-Pad the same stability as a tripod launcher.

**METALLIC MARKINGS:**

Positively identify launch controls!

**NEW CONCEPT:** Hefty battery\* actually becomes a part of the structure!

**PLUS THESE QUALITY FEATURES:**

- **CHECK LIGHT:** Tells when circuit is armed!
- **LARGE DEFLECTOR:** Exhaust protection!
- **3 FOOT ROD:** Handles all single-ignition rockets!
- **SAFETY KEY:** Prevents accidental ignition!
- **VERSATILITY:** Handles ALL standard igniters . . . not just special "sensitive" ones!

Precision molded in four different colors of high-impact plastic. Powr-Pad is a sensible, practical instrument . . . its obviously not a toy!

**15 FEET OF WIRE**  
with soldered  
micro-clips!

**\$550**

LIA-99

**NEW LAUNCH CONTROLLER:**

Easily assembled, with just a screwdriver!

**NEW CONCEPT:** Wire wraps neatly around launch controller, for storage in carrying handle!

IP-588

\* Battery not included. Typical recommended brands and types are listed on package.
